

Meetings are held second Monday each month, 7:00 pm

Residents are invited to attend our meetings, to express their suggestions for improvements in the town. Conversation can lead to some excellent exchanges of ideas and an ability to work together.

In addition, the visit can be a means to learn from the Comprehensive Plan document what goals are listed concerning, protection of open space, environmental protection, meeting needs of the aging, welcoming small-scale enterprises, encouraging affordable housing, protection of historic resources, road maintenance and recreation services.
